

# VYCOR® PLUS

## WINDOW AND DOOR FLASHING

### Premium Water Protection for Windows

Protects vulnerable details from moisture penetration

Limits air leakage around windows and doors

Forms a water and air seal with building materials

VYCOR® PLUS is a high performance self-adhered flashing, that provides premium protection against water infiltration in critical details such as windows and doors. When properly installed, VYCOR® PLUS flashing reduces the risk of mold and rot development, and contributes to energy efficiency.

*"I've been in the building industry for over 30 years and have never received a call back on leaking windows after I started using VYCOR® PLUS flashing tape. Easy to install and the peace of mind of knowing that if I do get a callback, it is not because of water leaking from the window flashing. I was the Superintendent on a project where we built 47 condos on the water in Avalon, NJ. Even after hurricane Sandy, we didn't get a call back on water leaking from around the windows. Great product and highly recommended."*

—Jerry Giles, Ehret Construction

# Why VYCOR® PLUS?

## **Superior adhesion to substrate —**

Forms strong waterproof bond

*Protect clients' walls against mold, mildew and rot*

## **Seals around fasteners —**

Prevents water penetration to the substrate

*Give clients peace of mind with premium protection*

## **Forms superior laps —**

Ensures strong laps even at seams in the flashing

*Another defense against moisture intrusion*

## **Ripcord® — and measurement markings —**

Enables fast and easy installation

*Opportunity to flash more windows*

## **Highly conformable and flexible —**

Accommodates settlement and shrinkage movement

*Premium protection even in hard to work areas*

## **Proven Track Record —**

VYCOR® PLUS flashing employs the same proven technology as GRACE ICE & WATER SHIELD® — the leader in roofing underlayments for over 35 years

Roll Width	4 in., 6 in., 9 in., 12 in., 18 in.
