2. San Francisco BART System, CA
3. Emirate Towers, Dubai
4. Bank of America Tower, Charlotte, NC
5. Hong Kong Airport, Hong Kong "

More than 500 Million square feet of Preprufe installed worldwide.

Your team has been nothing short of amazing....your field technical services team has led the charge for my staff and subcontractors on the application of your products, solving specific problems with creative detailing and always in a manner that everyone in the room could understand. Your continuous support and teamwork made this project a success."

-Joel Burch, General Superintendent, Tutor Perini Corporation

" Thank you for the excellent training sessions... The field technicians were impressed with the "hands-on" structure and that your team actually showed them how to install the new Preprufe System and not just directed them. The pre-construction meeting at the General Contractor's project site office was extremely valuable and served to inform the GC and other subcontractors working with us on the project far better than we could have relayed ourselves. "

-Scott Angell, Project Manager, Pro-Tech Caulking & Waterproofing, Inc.
