

# Shelf Life

The shelf life of GCP underlayments (Grace Ice & Water Shield®, Grace Ice & Water Shield® HT, Grace Ultra™, Grace Select™, Roof Detail Membrane, GCP granular underlayments, Tri-Flex XT® and Tri-Flex15®) is highly dependent on storage conditions. In general, these products should be stored in their original, unopened packaging at ambient temperatures between 40–90°F (5–32°C) under dry conditions. GCP self-adhered underlayments have optimum initial adhesion to the roof deck if used within one year from the date of manufacture.
