

# TL-0030 — Shelf Life/Storage and Handling of GCP Waterproofing and Air Barrier Products Technical Letter

---

## Storage Recommendation

The shelf life of GCP waterproofing and air barrier products are highly dependent on the conditions under which these products are stored. These products should be stored in their original, unopened packaging at ambient temperatures between 40°–90°F (5°–32°C). Liquid products should be protected from freezing. For specific product requirements, refer to the product data sheet and material safety data sheet.
